## Areas of Expertise

- |                                   |                                |                            |
|-----------------------------------|--------------------------------|----------------------------|
| ▣ Software Development            | ▣ System Troubleshooting       | ▣ Process Improvement      |
| ▣ Computer Programming and Coding | ▣ System Maintenance & Updates | ▣ Customer Satisfaction    |
| ▣ Software Testing & Debugging    | ▣ Object-Oriented Design       | ▣ Cross-team Collaboration |

## Technical Proficiencies

**Frontend:** JavaScript, jQuery, APIs, React, HTML, CSS, and Bootstrap.

**Backend:** Node, Express, MySQL, NoSQL, MongoDB, Mongoose, Sequelize, Handlebars, and GraphQL.

## Career Experience

### Richland County Health Department, Sidney, MT

2020 – 2021

#### Youth Substance Abuse Prevention Specialist / AmeriCorps Member

Served as program coordinator for ensuring drug-free communities. Planned and coordinated strategic county-wide youth substance abuse prevention coalition programs. Arranged and led in-person and online coalition meetings with law enforcement, healthcare, public school, local media, and mental health representatives to enforce policies and regulations. Leveraged technical skills to prepare original content and execute all social media platforms for The Dry Society.

- Played key role in establishing Drug-Free Communities by developing and implementing robust strategic / action plans.
- Scheduled and executed prevention events for over 300 students.

### Connors Steak and Seafood, Knoxville, TN

2015 – 2020

#### Server

Performed day-to-day tasks of job for more than 5 years, while simultaneously studying at The University of Tennessee. Cultivated strong communication skills by coordinating with staff members and clients.

- Collaborated with team to achieve top performance levels.
- Out-performed in high workload environment while ensuring on-time completion of tasks.

## Project Highlights

### Access Tennessee Full Stack - Frontend UI / UX and Backend Node

- Facilitated individuals by providing chance to rate and directly interact with businesses in community for explaining specific types of impairments/ disabilities needs.

- Utilized jQuery, basic JavaScript, and Backend with Handlebars and Node dependencies like Animate.css. to implement UI/UX design for Access Tennessee.
- Leveraged tools such as JavaScript, jQuery, Node, Express, Heroku, HTML, CSS, and Bootstrap during project.

### **Sour Screens Frontend**

- Designed website allows to search for an actor / actress and present list of movies with most poorly rated.
- Implemented UI/UX design for this project; Utilized Movie Database API for data of actors and movie ratings.
- Utilized JavaScript, jQuery, IMDb API, HTML, CSS, and Bootstrap during project.

### **Hanzai Watchers Full Stack- React Frontend and MongoDB, Node, Express Backend**

- Developed an application designed to allow users for submitting crime tips as well as meet others who feel passionately about serving their community and stopping crime.
- Implemented Ui/Ux design through React, React-Bootstrap, animate.css, and tailwind.css with backend using Node, Express, MongoDB, GraphQL, Apollo, and Deployed with Heroku.
- Utilized such as React, React-Bootstrap, Redux, animate.css, tailwind.css, Node, Express, MongoDB, Mongoose, GraphQL, Apollo, and Heroku during project.

## **Education**

### **Software Development Boot Camp**

Vanderbilt University, Nashville, TN

### **Bachelor of Arts in Psychology**

The University of Tennessee, Knoxville, TN

### **Associates of Science**

Pellissippi State Community College, TN

## **Professional Training & Development**

- ICS training
- QPR training
